

# Terrestrial Animal Health Standards Commission Report

October 2006

## EQUINE INFECTIOUS ANAEMIA

Article 2.5.4.1.

Standards for diagnostic tests are described in the *Terrestrial Manual*.

Article 2.5.4.2.

*Veterinary Administrations of importing countries* should require:

for equines

the presentation of an *international veterinary certificate* attesting that:

1. the animals showed no clinical sign of equine infectious anaemia (EIA) on the day of shipment and during the 48 hours prior to shipment;
2. no *case* of EIA has been associated with any premises where the animals were kept during the 3 months prior to shipment;
3. the animals were subjected to a diagnostic test for EIA with negative results on blood samples collected during the 30 days prior to shipment or the animals are imported on a temporary basis and the blood samples were collected within 90 days of export.
